I am writing to express my appreciation of the care and kindness offered by the student nurses during my stay at Baptist Hospital last week. I was admitted to the hospital due to persistent high fever and stayed in ward B403. There were 2 nurses from your department, both were very nice. One of them even kept holding my hand and offered me comfort while I kept vomiting (the student nurse's name is Wing Yan, if I remember correctly).

I wish to thank them for their kind heart, and am grateful that they have chosen to devote themselves in the medical field.

all the best,
 Winnie
